

The Cypress Solution

Better, More Thorough Benefit Reporting, Analysis and Evaluation

Program Perks

- Comprehensive reporting to analyze plan utilization
- Ability to track trends and compare health plan performance against national norms
- Helpful guidance in evaluating and implementing plan change options

How Does It Work?

In combining our data reporting and analysis services, clients are able to build the most comprehensive benefit plans to meet their needs by considering a variety of variables and scenarios. Cypress Benefit Administrators uses a robust online reporting package using a secure site and offers full analysis and modeling tools to help employers understand, predict and lower their benefit costs.

Why Does It Work?

The key to a successful self-funded benefit program is being able to retrieve the data needed to analyze plan utilization and make the right decisions to manage costs. Our **Data Management** services give each employer access to timely reports and our proven analytics help transform all of the numbers into actionable management information. We also have the experience and flexibility to define assumptions and evaluate multiple plan change scenarios while predicting the financial impact of each one.
