**New Resources Developed to Educate Consumers  
About Self-Funded Health Plans**

Along with providing our clients the best service possible, Cypress Benefit Administrators also aims to be an educational resource for those looking to learn more about topics related to employee benefits and self-funding. In supporting this goal, we are an advocate of and contributor to the newly developed industry website, [SelfFundingSuccess.com](http://SelfFundingSuccess.com). This informational site recently published several new resources to its Self-Funding 101 section focusing on a variety of elements that contribute to the positive results many employers are experiencing with self-funded health plans – [workplace wellness](#), [prescription cost management](#) and [price transparency](#). Click a topic to see each individual piece. You can also explore the whole [SelfFundingSuccess.com](http://SelfFundingSuccess.com) site or read the [full news release](#).
